

SRX310KP

Smart Card proximity reader

- Contactless smartcard reader, using 13.56 MHz,
- Reads Standard Mifare smart cards, confirm to ISO 14443A,
- Provides standard 26 or 34 bit Wiegand output,
- Compatible with any standard Wiegand access control system,
- Red and Green LED and buzzer,
- Compact, ergonomic and convenient size

Performance:

- Combines smart card reading with a standard keypad,
- 8 Bit Wiegand output per keystroke,
- Reading range 3" ~ 4",
- Can read any sector of the Mifare card, or read the card serial number (standard),
- Read & Write Time: ≤ 3 ms/Byte,
- International Protection Rating IP54 against dust and moisture

Technical Specification:

External size:	3.43" x 3.43" x 0.91"
Operating voltage:	9V ~ 15VDC
Operating electric current:	80 ~ 90mA
Temperature range:	-13°F ~ +158°F
Humidity range:	10% ~ 90%
Material:	ABS
Color:	Silvery & Black
Gross weight:	4.3 oz
